4. SKILLS

BACKEND
*I had been using **Ruby on Rails** primarily as a web framework and have great experience in applying principles of MVC design. I have started mainly using **Django,** which is written in Python, as being part of my present work. I have good understanding of **RESTful design**. I have also experiences in deploying web applications into Digital Ocean, Heroku, Amazon EC2 Instances and Amazon Elastic Beanstalk. I also have great exposure in using Git.*

FRONTEND
*I have great experience on using **HTML**, **CSS, javascript & jQuery**. I am able to build client-side of single page apps using **Backbone.js** and **Marionette.** I am also able to implement **responsive web design**.*

LANGUAGE
I can communicate well using English and have intermediate knowledge of Korean language. I have also studied basic Japanese back in college.

5. INTERESTS

UI/UX Design
Playing League of Legends
Traveling around the world
